### DAHLIAS

We carry a limited selection of large-flowered and pompom Dahlias. Varieties and prices on request.

# HARDY PERENNIAL FLOWER SEEDS

---

Seeds of most hardy perennials and biennials should be sown in well-prepared frames or open ground in May, June or July and the seedlings transplanted when large enough. These plants do not flower until the succeeding year.

In our Cape Cod Nurseries we offer two-year flowering size plants of the standard and newer varieties of hardy perennials. A list with varieties and prices will be mailed on request if you do not receive one.

## FERTILIZERS FOR LAWNS

All lawns need feeding each year to keep them in a healthy growing condition. The safest guarantee against weeds in the lawn is thick, well-nourished healthy grass.

There are many good fertilizers in the market for this purpose and at greatly varying prices, each, of course, having its merits. But for an economical and effective lawn fertilizer we recommend Premier Brand Pulverized Poultry Manure. An organic fertilizer, heat treated to free it from weed seeds, easy to apply, the plant food quickly available but lasting through the season. Apply in early spring at the rate of 35 to 40 lbs. per 1,000 sq. ft or about  $\frac{3}{4}$ -ton per acre. An additional light application in early fall is also beneficial.

### Price of Poultry Manure:

50 lbs. \$2.00, 100 lbs. \$3.50.

500 lbs. \$13.00, ton \$50.00.

Our Landscape Department is qualified and equipped to offer help and suggestions in making new lawns or reconditioning old ones.

## FERTILIZERS

Not less than  $\frac{1}{2}$  ton at the ton rate.

10% for cash will be allowed on all orders at tonnage prices.

Prices subject to market changes.

We have always recommended and sold "A. A." and Bowker's brands of commercial fertilizers. Their quality, reliability and worth have been proven. The quantity and quality of crops will be increased by their use.
